1988 Honda Prelude Engine

The Honda Prelude is a sports car which was produced by Japanese car manufacturer Honda from 1978 until 2001. The two-door coupe was loosely derived from the Honda Accord and spanned five generations. The Prelude was used by Honda to introduce the Japanese Honda retail sales chain Honda Verno, with the international release of the model following shortly after.

Honda Prelude - Wikipedia

Honda Prelude 4 engines were different inline-4 engines F20A, F22A, F22B and H23A. They were not too powerful and developed 130-160 HP. The most aggressive versions were Prelude VTEC or Prelude VTI-R/SR-V, where 190-200 HP H22A engines were used. In the end of 1996, 5th generation Honda Prelude was launched.

Honda Prelude engines | Specs, features, upgrades, problems

The Honda A-series engines succeeded the earlier EZ, ES, BS and ET engines in the Honda Accord and Prelude. There were several variations, ranging from the 1.6-liter A16A to the 2.0-liter A20A. Beginning in the 1988 model year, in the North American market, the A20A3 and A20A4 used a dual-stage runner intake manifold design, 4-2-1 exhaust manifold, and a more advanced electronic distributor.

1988 Honda Prelude leaking coolant

The 1988 Honda Prelude Si 4WS was the first mass-production automobile from a major automaker to feature four-wheel steering. Furthermore, while rival automakers like Mazda, Nissan, and Mitsubishi were working on four-wheel steering systems of their own, each relied on solenoids and computers to change the angle of the rear wheels, based on sensors which read the steering angle of the front ...
