Climate Misinformation by Source: Roy Spencer Dr. Roy Spencer is a principal research scientist for the University of Alabama in Huntsville, as well as the U.S. Science Team Leader for the Advanced Microwave Scanning Radiometer (AMSR-E) on NASA's Aqua satellite.

Climate misinformation by source: Roy Spencer

The proportionality constant(s) have the same units as climate feedback parameters ($W m^{-2} K^{-1}$), and are analogous to the heat transfer coefficient. A transfer coefficient of $0.2 W m^{-2} K^{-1}$ for the bottom layer produced 0.01 deg. C of net deep ocean warming (below 2000m) over the last several decades which Cheng et al. mentioned there is some limited evidence for.

Roy Spencer, PhD

Latest Global Average Tropospheric Temperatures. Since 1979, NOAA satellites have been carrying instruments which measure the natural microwave thermal emissions from oxygen in the atmosphere.
