Story Posing as Sci-Fi October 25, 2018 An interesting initial premise (generation ark ship gone long past it's destination and colonists who have forgotten where they are going or how to run the trip).

Amazon.com: Customer reviews: Forgotten (The Forgotten Book 1)

Forgotten is a well-written and interesting sci-fi book. Unfortunately, I have one major problem with it. I at least dislike, if not outright hate, the MC (Main Character). The more I read, the more I disagreed with the MC's actions and the less I enjoyed Forgotten. By the end of the book I was glad I was finished.

Laurence Rosenthal's score to the 1989 telefilm *The Forgotten* serves as a powerful example of one of Rosenthal's greatest strengths as a film composer: his ability to write music that not only fits the action, but speaks with great clarity to the underlying truth of the characters. The characters are tortured individuals in wrenching circumstances, and Rosenthal's music does not shy away from ...
