components can produce a variety of sound combinations ... Gears in manual transmission can make clicking noises from damaged gear teeth, shaft gears or cluster gear assembly. If the noise started soon after replacing the struts, there could be a loose suspension component.

## **Diagnosing Noise From a Manual Transmission - AxleAddict ...**

With manual transmission problems, you may notice after shifting into a gear that the car's engine will rev up, but the car won't be moving as quickly as the engine is running. In this case, a worn-out clutch or more serious transmission problem may be occurring [source: AAMCO].

## **Top 10 Signs of Transmission Trouble | HowStuffWorks**

Slipping gears: Your transmission is supposed to stay in one gear until you shift (with a manual transmission) or the computer does it for you (with an automatic transmission). If the transmission is slipping in or out of gear without any effort on your part in a manual, or sliding into neutral in an automatic, you need to get to a mechanic immediately!

## **The 10 Transmission Problems to Never Ignore ...**

The way to diagnose transmission problems is to first take note of when the problem is present and under what conditions. If a manual transmission makes noises just when the clutch pedal is all the way up or engaged and a grinding or rattling noise is heard, the throw-out bearing for the clutch is bad.

## **Diagnosing Manual Transmission Problems | It Still Runs**

Craig Douglas, president of highly rated Automotive Service Group in Indianapolis, says just like an automatic transmission, manual transmission fluid needs to be replaced to keep the internal components operating correctly. He adds that manufacturers have direct specifications, but recommends a fluid change around 45,000 to 60,000 miles.

Modern manual and automatic transmissions are complex machines. With that intricacy comes the possibility for a number of transmission problems to arise over time. When faced with these issues, the average driver doesn't necessarily know what kind of problem is occurring - they just know something is wrong with their vehicle.
