## Read Online Text Introduction To The Human Body 9th Edition

I believe the text is up-to-date and written in a way that prevents need for numerous updates. Clarity rating: 5 The text is well-written, as or more understandable than the many other texts I've used. Consistency rating: 4 I suggest incorporating a section on human evolution, perhaps with the introductory chapter.

Human anatomy is the study of the shape and form of the human body. The human body has four limbs (two arms and two legs), a head and a neck which connect to the torso. The body's shape is determined by a strong skeleton made of bone and cartilage, surrounded by fat, muscle, connective tissue, organs, and other structures.
